

Radio-controlled Dimmer for 0-10 V

Hand-held remote control
Transmission range: 20–50 m

Receiver module
IP 65

0-10 V output to the converters

Indicator LED

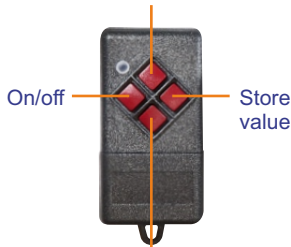

230 V/50 Hz

Dimensions:
54 x 94 x 34 mm

Article no. 1 0238 300

Key functions:

Increase control voltage

Decrease control voltage

The radio-controlled dimmer consists of a hand-held remote control and a receiver module.

The receiver module is fully embedded in a plastic housing.

The dimmer can be used to control all dimmable **hansen** converters.

The connection to the mains is made by means of a 1.5 m connecting cable with mains plug.

The transmission range of the remote control is 20 to 50 m depending on the location.

Two individual 1 m cables are provided for the control voltage.

Receiver

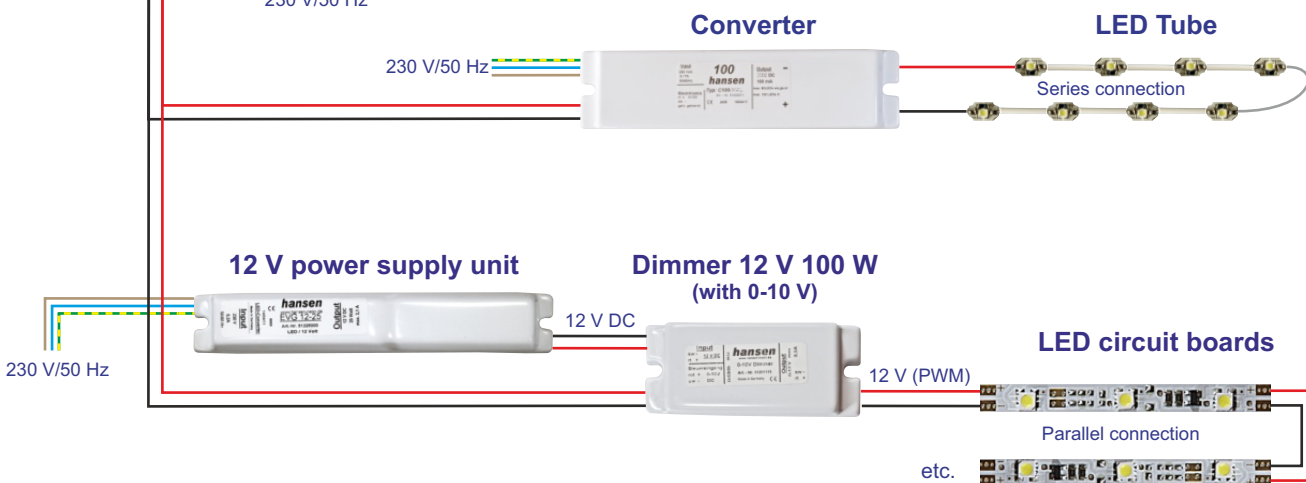

230 V/50 Hz

For further technical information please refer to the operating instructions.

The following converters can be controlled:

- C25/300D
- C25/990D
- C50/500D
- C50/990D
- C100/300D
- C100/990D
- C350/180D
- C350/300D
- C500/120D
- C500/200D
- C750/85D
- C750/140D
