

## Mini Profile

**Important:**  
Connect the LED to the converter first  
before switching on the mains voltage!

Example 1: one Mini Profile operated with 12 volts

Example 2: two Mini Profiles operated with 12 volts

**Caution: The maximum output power of the power supply unit must be observed!**

Power rating:  
See type label on the back of the product.

Note:

LEDs are connected in parallel to 12/24 V

Note:
