

20 mm Aluminium Frame

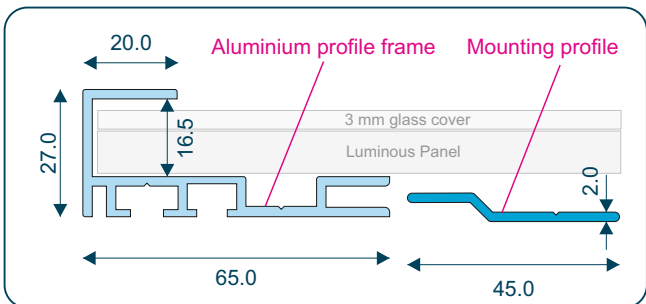

The slim frame for our Luminous Panels • Only 20 mm wide

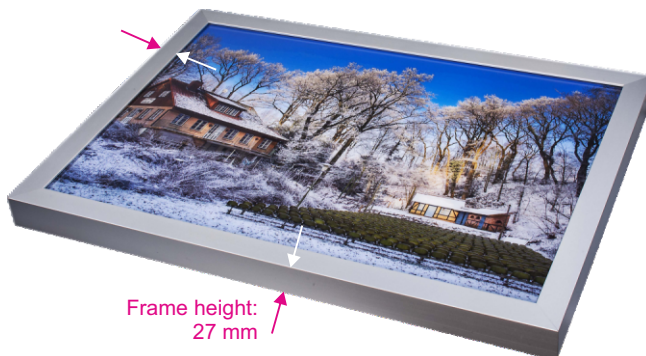

Prepared for simple wall mounting

Back view

Frame width: 20 mm all round

Frame height: 27 mm

Aluminium frame (front view)

The new 20 mm Aluminium Frame for our **hansen** Luminous Panels can be hung very easily using a mounting profile on the back.

The 20 mm Aluminium Frame consists of the following components:

- **Aluminium profile frame**
Silver-grey anodized surface
- **Luminous Panel**
Slim: 8 mm, Basic/Eco: 11 mm, Power: 13 mm
- **3 mm glass cover**
Plexiglas Gallery UV 100 AR or WH46SC opal
- **Wall mounting profile**
- **Power supply unit** (must be ordered separately)

With a width of only 20 mm the frame offers a slim alternative to our 30 mm magnetic frame. It is manufactured entirely in-house and represents a cost-efficient alternative particularly in large sizes.

The frame allows the motif to be exchanged and offers different mounting options:

- Wall mounting using a mounting profile
- Suspended mounting from ceiling with Reutlinger cable holder system
- Suspended mounting in shop window with Reutlinger cable holder system

The aluminium frames are **not** suitable for outdoor use!

Both the Luminous Panel and the 20 mm Aluminium Frame are custom-made.

The frame can be specified with Luminous Panels of all power classes, illuminated from one, two or four sides.

Maximum dimensions of the Aluminium Frame:
Width + height = 3,500 mm
(With a maximum width of 3,000 mm or a maximum height of 1,500 mm)

Please contact us for exact sizing information, prices and technical details.
