

## Light Profile VEGA

### Slim light profile

### with integrated power supply unit

The **hansen** light profile VEGA is a linear LED luminaire primarily designed as energy-saving replacement for fluorescent lamps, for the illumination of rooms, work places, etc.

A special feature of the luminaire is its **integrated converter**. This allows the VEGA to be connected directly to the 230 V mains without the need of an external power supply unit. The converter is embedded on the rear of the profile.

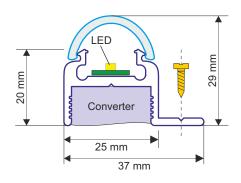

Another special feature is the **length of the luminaire**, which can be specified by the customer. From 510 mm (minimum length) to 3,010 mm (maximum length) any length in steps of 100 mm can be provided.

#### Customized lengths up to 3,010 mm

- Four light colours: 3,000 K, 4,000 K, 5,000 K, 6,500 K
- Silver-coloured anodized aluminium profile
- For indoor use (IP20)
- Integrated converter
- Satin-finish or transparent plastic cover
- Fixing flange along one side

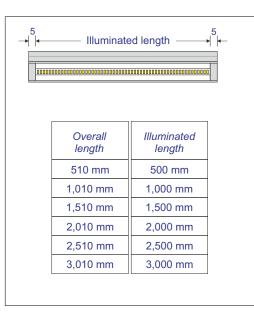

# Cross-section and dimensions (actual size)

Length (mm)	Line current (A)	Power (W)	Luminous flux at 4,000 K (Im)
510	0.042	9.5	700
1,010	0.076	17.5	1,400
1,510	0.117	27.0	2,800
2,010	0.152	35.0	3,500
2,510	0.191	44.5	4,200
3,010	0.235	54.0	4,900
